- UNB house orientation committee (September 2014).
- UNB house social representative (September 2014 - April 2015).

HOBBIES

I am a big sports and athletics fan. I enjoy an active lifestyle, biking in the summer, refereeing and weight training during the winter. I spend my spare time creating software, such as mobile applications, to facilitate certain aspects of my life, mostly with decision making, record keeping, and predictions. I have several Github repositories showcasing previous works, including a Minesweeper android app, a photo-editing android app (FinalTouch), and a javaFX web-scraping app (NHLQueries). I also like playing some video games when I have the opportunity.
