Kansas City Beginnings: Before becoming the New Jersey Devils, the franchise was known as the Kansas City Scouts (1974–76) and the Colorado Rockies (1976–82). The team moved to New Jersey in 1982, and became a dominant force in the 1990s.

The Trap Defense Era: The Devils became known for their defensive strategy, the "neutral zone trap," which stifled opposing teams' offenses and led to their first Stanley Cup victory in 1995. This style of play defined the NHL in the late 1990s.
