

Professional Summary

Systems and Infrastructure Professional with experience supporting enterprise business systems, databases, software applications, and operational technology environments. Proven ability to troubleshoot complex technical issues, automate processes using Python and SQL, develop internal tools, and collaborate with users across multiple departments. Strong foundation in infrastructure operations, networking concepts, systems administration, automation, documentation, and continuous improvement. Seeking to leverage a broad technical background and analytical mindset in a Network Engineer role with McCain Foods.

Experience

Systems Support & Operations Analyst

BWS Manufacturing Ltd. | Centreville, N.B. (Jan 2021 – Feb 2026)

Supported business-critical operational, database, reporting, and infrastructure systems within a manufacturing environment while contributing to process improvement and internal software development initiatives.

Key Contributions

- Supported business-critical ERP, database, reporting, and infrastructure systems in a manufacturing environment.
- Investigated and resolved complex technical issues involving applications, databases, network connectivity, and user systems.
- Developed and maintained SQL Server solutions, reports, dashboards, and automation processes supporting operational teams.
- Developed Python-based automation tools for data processing, monitoring, reporting, and operational workflows.
- Produced technical documentation, workflows, user guides, and support procedures.
- Assisted with system upgrades, testing, deployment activities, and ongoing operational support.
- Monitored system performance and implemented improvements to reliability and usability.
- Participated in troubleshooting infrastructure-related issues across servers, workstations, applications, and network-connected systems.

Infrastructure & Systems Support

- Supported Windows-based infrastructure, user workstations, network-connected devices, and enterprise applications.
- Assisted with Active Directory administration, user account management, permissions, and system access.
- Investigated connectivity, hardware, application, and infrastructure issues across business-critical systems.
- Participated in system deployment, upgrades, maintenance, and operational support activities.

Notable Projects:

- IT Request and Inventory Ticketing System, built using SQL and Access.
- Developed an Access macro and VBA workflow to automate batch report generation, triggered from a Python/Streamlit dashboard. Implemented timestamp validation and fault-tolerant logic to ensure reliable generation of up to 50 reports per execution.
- Developed a “Yellow Tag” tracking system to automatically flag, record, and report missing production parts using live Syspro ERP data.
- PDF parsing of legacy reports using Python libraries including pdfplumber, Streamlit, and Pytesseract.

Technologies used:

- Python, SQL Server, Microsoft Access, VBA, Syspro8 ERP, Streamlit, Pandas, Plotly, Microsoft Excel.

Other Job Experience:

- Basketball Referee – CBOC – Fredericton, NB – Oct 2013 – Mar 2020 – Part-time.
- Kitchen Staff – FMI – Fredericton, NB, -- May 2015 – Sept 2017 – Part & full-time.
- Farm Hand – Hunter Brother’s Farm Market – Florenceville, NB, -- Jun 2011 – Aug 2013 – Seasonal full-time.

Education

Bachelor of Computer Science

UNB – Fredericton N.B. (Sept 2017 – May 2020)

- Specialization: Software Systems.
- Recipient of Governor Thomas Carleton Entry Scholarship.

Skills

- **Languages:** English (native), French (Intermediate professional proficiency).
- **Programming:** Java, Python, SQL, VBA
- **Frameworks & Technologies:** REST APIs, Streamlit
- **Databases:** SQL Server, Microsoft Access
- **Data & Analytics:** Pandas, Plotly, Excel, Data Validation
- **Automation & Integration:** OCR, PDF parsing, API integration, workflow automation
- **Tools:** Git, Syspro8 ERP, ShopClock
- **Networking & Infrastructure:** TCP/IP, DNS, DHCP, VPN Technologies, Routing & Switching Fundamentals, Network Troubleshooting, Active Directory, Windows Administration

Awards & Activities

- Finalist (Top 12) - Kaspersky Academy Partner's Summit (KAPS) Lisbon, Portugal (Dec 2019).
- Certified intermediate plus in the French oral proficiency exam CNHS (June 2013).
- UNB dormitory orientation committee (Sept 2014) & Social Representative (Sept 2014 – Apr 2015).
- UNB Relay for Life steering committee logistics team (Sept 2013 – Feb 2014).

Hobbies

3D printing and hardware projects, sports analytics software, recreational athletics (cycling, kayaking, basketball officiating).

Projects

- Developed operational dashboards and monitoring tools using Python, SQL Server, and Streamlit to improve visibility into manufacturing and business processes.
- Built 3D warehouse visualization applications to support inventory management, facility analysis, and operational planning.
- Developed automation solutions for reporting, data processing, and workflow execution, reducing manual effort and improving reliability.
- Additional exposure includes OCR systems, API integrations, Android development, and data visualization applications.
