

Professional Summary

Operations and business systems professional with experience supporting inventory management, reporting, process improvement, and cross-functional business operations in a manufacturing environment. Proven ability to solve problems, support users, analyze business performance, and implement operational improvements. Recognized for learning new systems quickly, collaborating with diverse teams, and taking ownership of critical business processes. Seeking to leverage leadership, analytical, and operational experience in a General Manager role.

Experience

Systems / Business Analyst

BWS Manufacturing Ltd. | Centreville, N.B. (Jan 2021 – Mar 2026)

Supported business-critical operational, database, reporting, and infrastructure systems within a manufacturing environment while contributing to process improvement and internal software development initiatives.

Key Contributions

- Supported day-to-day business operations through development and maintenance of reporting, inventory, and operational systems.
- Collaborated with purchasing, warehouse, production, and management teams to improve business processes and operational efficiency.
- Created reports and dashboards that provided visibility into inventory, purchasing, production, and performance metrics.
- Investigated operational issues, identified root causes, and implemented practical solutions.
- Trained and supported users on business systems and operational procedures.
- Managed multiple priorities while supporting critical business functions across departments.
- Worked directly with management to improve reporting accuracy and decision-making capabilities.
- Provided guidance and support to employees across departments while helping drive adoption of new processes and systems.

Technical & User Support Responsibilities

- Delivered technical support and customer-focused service to employees across multiple departments.
- Resolved issues efficiently while maintaining strong working relationships with users and stakeholders.
- Assisted with implementation and maintenance of business software and operational systems.
- Developed documentation and training materials to improve user adoption and consistency.
- Demonstrated strong communication skills when working with both technical and non-technical individuals.

Notable Projects:

- Operational Reporting & Inventory Visibility
 - Developed reporting tools and dashboards to improve visibility into inventory levels, purchasing activity, production requirements, and operational performance.
- Business Process Automation
 - Designed and implemented automated processes that reduced manual effort, improved data accuracy, and increased efficiency across business operations.
- Cross-Department Information Systems
 - Built tools that enabled departments to access critical information more effectively, improving communication and operational decision making.

Technologies used:

- Microsoft Excel & Access, Syspro8 ERP, VBA, Python, SQL Server

Other Job Experience:

- Basketball Referee – CBOC – Fredericton, NB – Oct 2013 – Mar 2020 – Part-time.
 - Managed game flow, enforced rules consistently, communicated decisions clearly, and resolved conflicts in fast-paced environments.
- Kitchen Staff – FMI – Fredericton, NB, -- May 2015 – Sept 2017 – Part & full-time.
- Farm Hand – Hunter Brother's Farm Market – Florenceville, NB, -- Jun 2011 – Aug 2013 – Seasonal full-time.
